

BEING was formulated utilizing only the cleanest products available. BEING contains no added sugar, no preservatives, and no added fillers. The alkalizing green ingredients were chosen for their superior nutritional value and ease of absorption. The Ayurvedic botanicals were selected for their ability to detox the body and reduce inflammation. BEING is the first "AlkaVedic" product to help you to be the best YOU!

Most people consume a Protein drink or Meal Replacement to help maintain or loose weight. Understand fat holds toxins. When we loose fat we then release these toxins into our now smaller body resulting in concentrated toxicity. This issue is rarely addressed in the formulation of protein shakes and meal replacements. BEING address this issue providing Botanicals to help cleanse the body of these toxins.

Being also address the issue of healthy fats. Not all fats are bad. There are fats called Essential Fatty Acids. They are essential to our health but our body can not make them we must consume them. Our brain is 60% fat. Our skin, our joints, our blood all need these healthy fats to be at optimum levels. Almost all of the fat in BEING comes from Chia Flour. Chia is considered one of the best sources of Omega's in existence.
